Sequential (proposed)
T2 component p = 0.001
Cumulative residual process
Proportion of observations ordered by baseline count
Marginal
T2 component p = 0.001
Cumulative residual process
Proportion of observations ordered by baseline count
Full−cluster posterior
T2 component p = 0.002
Cumulative residual process
Proportion of observations ordered by baseline count
Sequential (proposed)
T2 component p = 0.016
Cumulative residual process
Proportion of observations ordered by period
Marginal
T2 component p = 0.011
Cumulative residual process
Proportion of observations ordered by period
Full−cluster posterior
T2 component p = 0.001
Cumulative residual process
Proportion of observations ordered by period
